

## L5-30P to L5-20R Extension Cord with Breaker - 20A, 120V, 10 AWG, 2 ft., Black

MODEL NUMBER: P043-002

L5-30P to L5-20R extension cord with breaker transforms a NEMA L5-30R wall outlet into a NEMA L5-20R outlet.

### Features

**Heavy-Duty Extension Cable Connects Devices That Require a Heavy-Gauge Connection** This heavy-duty extension cord with breaker features 10 AWG wire suitable for high power connections, making it a reliable solution for large server applications that require a higher-rated, heavier-gauge cable. It comes with a built-in metal 20-amp breaker box, which allows you to transform a NEMA L5-30R wall outlet into a NEMA L5-20R outlet. It is also a recommended replacement or upgrade of a standard power cord provided by the device's manufacturer. The two-foot length helps reduce cable clutter and minimize the risk of tripping.

**Locking Connectors Help Prevent Accidental Disconnection and Expensive Downtime** Having a cable come loose accidentally can mean the loss of power and costly downtime. Locking connectors on each end help you avoid such danger, protecting critical equipment by maintaining a secure link without failure. The locking cable is also invaluable when moving equipment in a rack or removing equipment from tight areas, ensuring the power cord always stays connected.

### Highlights

- Built-in 20A breaker allows easy transition to L5-20R outlet with no electrician needed
- 2 ft. length allows flexibility in placing devices, while avoiding cable clutter
- Heavy-duty cable replaces or upgrades standard power cord provided by manufacturer
- Thick 10 AWG wire gauge manages high power levels required for larger equipment
- Locking connectors maintain secure link to avoid loss of power and costly downtime

### Applications

- Connect PDUs and UPS systems to a power outlet up to 2 ft. away in your office or workspace
- Extend an existing power connection up to 2 ft. to more easily place a device or reach a power source in a rack
- Transform a NEMA L5-30R outlet into a NEMAL L5-20R outlet with no electrician needed
- Update or replace the standard power cord provided by a device's original manufacturer
