

V-STAND® PRO

V-Style Portable Height-adjustable Keyboard Stand with Built-in Cable Management System - Black

Distinctive Design and Style

The V-Stand Pro features a sleek design and provides a distinctive look to your keyboard rig. You can use it in a standing or sitting position, and it looks as great as it functions.

Highly Versatile Stand

Height and width adjustable for optimal sitting or standing positions, the V-Stand Pro holds keyboards, DJ equipment, and mixing consoles. In addition V-Stand Pro accommodates portable audio and lighting consoles. Whatever you might need to support at your next gig, the V-Stand Pro can hold it!

Foot Pedal Clearance and Cable Management

The V-Stand Pro provides a wide footprint for easy access to pedals. And, since you can use it in a standing or sitting position, we've designed plenty of room to set up as many pedals as you wish - in whatever arrangement you desire! Plus, the V-Stand Pro features two cable clips, one on each leg, so you can keep your cables from getting in the way of your performance.

Innovative Portability

Ultimate Support understands that many of today's keyboard players are playing in the studio AND out in the field - often in the same week - and that portability is a must for your favorite keyboard stand. The V-Stand Pro quickly and easily folds into a surprisingly compact unit so you can take it anywhere!

Arms securely hold up to 150 lbs.

Height adjustable for sitting or standing playing styles

Heavy-duty, patented die-cast base

New pin system securely locks arms and legs in place

Nearly indestructible glass-reinforced polycarbonate arm supports and collars
