

WHIRLWIND IMP2

PARALLEL HIGH Z IN/OUT (1/4" Jacks)

Two 1/4" jacks which provide the means to input and "loop through" the source signal. These jacks are wired in parallel, it makes no difference which one is used for input or output.

LOW Z OUTPUT (XLR Jack)

A male XLR that provides a low-impedance (150 Ohms), balanced output suitable for connection to a mixing console.

GND/LIFT (Switch)

Disconnects the ground between the input and the XLR output when set to the "LIFT" position. Ground remains connected when set to the "GND" position.

This product is warranted to be free of defects in materials or workmanship to the original purchaser for a period of 3 years from the date of purchase. Should warranty service be required, return the unit postage paid along with the original sales receipt to:

Whirlwind Music Dist., Inc.
99 Ling Road
Rochester NY 14612

Whirlwind will, at its option, repair or replace the unit. This warranty does not cover damage resulting from abuse, unauthorized modifications or use of the product in unintended applications.
