wePresent WiPG
Wireless interactive Presentation Gateway

BASIC FEATURES:

Cross Platform
Windows. Macbooks. iOS. Android. Connect it all Wirelessly.
With wePresent, BYOD meets wireless projection.

64-User Queue
Up to 64 users can connect to the wePresent gateway
making it a truly collaborative experience.

1080p Resolution
With both an onboard VGA and HDMI video output, you can
let classroom and conference room users wirelessly project in
resolutions up to full 1080p.

Customized Logo on Standby Screen
Add a company logo to brand the standby screen,
so it's the first thing users see.

WebSlides
Enables audience to follow along at their
own pace and with their own device.

SidePad Mobile Control
Turn a mobile phone or tablet into a remote
control for any projecting Mac or PC.

Quadrant Display
Allows users to project up-to 4 devices onscreen
at the same time, and wirelessly collaborate in real time.

LAN Port
If wePresent is hardwired to your network, users can connect to your
network as usual to wirelessly present and still maintain internet.

30fps
wePresent allows video mirroring at up to
30-frames-per-second for smooth video playback

Wireless Access Point
Broadcast an additional wireless SSID signal for
your team or your guests to connect to.

Conference Control
Allows a designated moderator to select and control
which device in queue will be displayed on screen.

USB Guest Access
Includes a fast Plug-and-Show USB token, enabling
guests to give a wireless presentation without installing
software on their computer.

ADDITIONAL FEATURES:

Touchscreen Control
Control and operate the presentation using
the USB of the touchscreen display.

Interactive Whiteboard
With one click, switch the presentation to a
white/blackboard environment for quick annotations.

AirPad Controller
Write, draw and annotate, but also control any
projecting computer using the special AirPad.

OnScreen Annotation
During a presentation, write, draw and annotate
on-screen using the built-in annotation overlay.
